CALLING FOR A FILIBUSTER

The legislative session is a dumpster fire. Leadership is out of control and two people (Speaker of the House Dean Plocher and Sen. Caleb Rowden) are calling all of the shots in line with their lobbyist masters in direct opposition to what the citizens of Missouri want. With four days remaining in this legislative session, some really dangerous pieces of legislation are poised to pass. WE need to stop it. It is time to call a halt to the insanity.

Read more here about the shenanigans:

Please call and email as many Republican Senators as possible and ***ask them to filibuster the remainder of the session***. Stop anything else from passing and allow the Governor to call special sessions to deal with the really important issues such as

- Gold and Silver as currency (SB 100)
- The SAFE Act to protect Missouri children from gender reassignment (SB 49)
- Initiative Petition Reform
- Protecting the medical freedom of Missouri children (HB 1169, HB 700 and HB 445)
