- Calvin Morrow (Guest Speaker) – “Engaging the Churches”. Calvin is leading an effort to encourage churches to educate their flocks as to conservative Christian values, especially when it comes to voting. After the 4/4 election Alex Bryant prepared a video called “**The most churchd city in America stayed home!**” (found under We the People of Missouri on Rumble, April 6, 2023), that gives pretty good explanation as to what happened.
 - The need to educate becomes more and more evident with each passing election. The churches in our community (*with a few exceptions*) are not engaged. Cavin will address where we are and *what we can do to help* in this on-going movement.
Remember our motto: Educate, Engage, Empower

- Discussion/Q&A

- Closing

Big Question:

Are there subjects that YOU, as part of We the People, would like covered within our monthly meetings? Outside of our monthly meetings? Are there speakers you would like to hear?

If you can, print this agenda and use it in the meeting to make notes for yourself.
